

Scientific Video Presentation Index

Presenter	Type	Presentation Title
Bock, Christoph	Short Talk	CRISPR droplet sequencing (CROP-seq) Massive-scale functional screens with single-cell transcriptome readout
Campbell, Joshua D.	Short Talk	Don't fear the zeros: Identifying transcriptional states and cellular populations in sparse single-cell RNA-seq data with Bayesian hierarchical modeling
James, Kylie	Short Talk	Resolving bifurcation of T helper cell fates at single-cell level
Lee, Je H.	Full Talk	The spatial reconstruction of RNA expression and sequences for biomarker discovery and mutation tracing
Qutub, Amina Ann	Full Talk	Communication Between Developing Neural Cells
Raj, Arjun & Shaffer, S.	Full Talk	Rare cell variability and drug-induced reprogramming as a mode of cancer drug resistance
Villani, Alexandra-Chloé	Full Talk	The power of single-cell genomics: discovery and characterization of novel human immune cells

Listing is in alphabetical order by presenter's last name.
