

## FOM/IT

# **Leveraging HRSA Funding For Post-COVID Growth**

Tuesday, October 19, 2021

# THE NACHC MISSION

#### **America's Voice for Community Health Care**

The National Association of Community Health Centers (NACHC) was founded in 1971 to promote efficient, high quality, comprehensive health care that is accessible, culturally and linguistically competent, community directed, and patient centered for all.

#### Leveraging

- Lever used to help move a heavy or firmly fixed load with one end when pressure is applied to the other
- Leverage use (something) to maximum advantage

## **Today's Tidbits**

Overview of Capital Planning

Sharing of Experiences

Types of Financing Resources

Preparing for What Might Be Next

Some Financing Examples

Q&A/Resources

#### **Capital Link**

# Launched in 1995, Nonprofit HRSA National Training& Technical Assistance Partner Offices in CA, CO, FL, MA, and WV

## Assessing Risk "at the Edges"

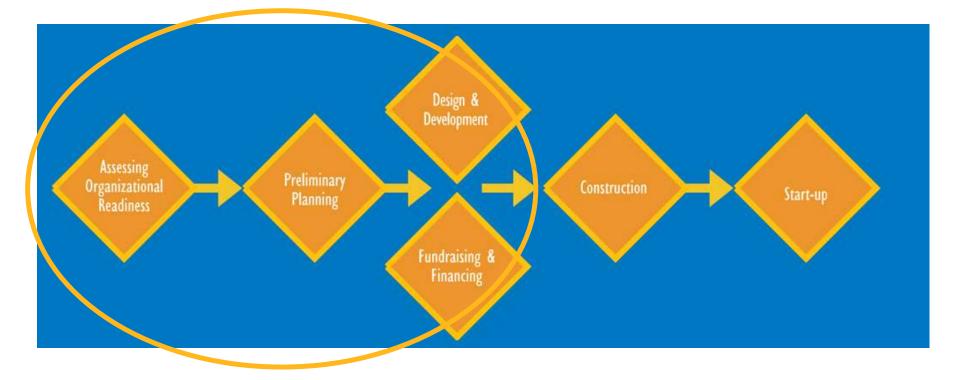

# Capital Planning: Method to the Madness...

## Steps to a Successful Project

- Strategic Planning
- Financial Strength
- Operational & Clinical Excellence
- Assessing Market Opportunity
- Developing a Business Plan
- Identifying Financing Resources
- Project Planning Expertise

#### What to Build? How to Build?

- Begin to Define Your Capital Needs and Projects
- Know Your Financial and Operational Health
- Determine Debt Capacity
- Identify Sources and Types of Financing
- Tools and Resources

## When to Plan?

**Begin to Define Your Project(s)** 

- Patients
- Populations
- Services
- Geographical Area
- Provider Capacity and Types

HEALTH

Area(s) of Excellence

## **Financial and Operational Health**

	Metric	Why This Is Important
1	Operating Margin	Measuring stick of your business model; margins typically small but need to be positive
2	Bottom Line Margin	Is performance dependent upon large capital grants and/or other sources of non-operating revenue?
3	Personnel-Related Expense	Consumes 70-75% of budget; key driver of financial performance
4	Days Net Patient A/R	Financial management starts with collecting your money efficiently
5	Days Cash on Hand	Is there enough liquidity to keep operations running smoothly?
6	Physician Productivity (visits)	Productivity is the basis for revenue generation
7	Mid-Level Productivity (visits)	Productivity is the basis for revenue generation
8	Dental Provider Productivity (visits)	Productivity is the basis for revenue generation

## Financial and Operational Health

	Metric	Why This Is Important
9	Medical Provider Productivity (patients)	Becomes more important in transition to team-based care
10	Medical Team Productivity	Who are your teams? How do they perform?
11	Cost (Revenue) per Visit	How are your visit costs changing over time?
12	Cost (Revenue) per Patient	With the move to PCMH, how are patient costs changing?
13	Medical Support Staff Ratio	How strategic is the staffing the medical teams?
14	Non-Clinical Staff Ratio	Non-clinical employees are not revenue drivers
15	Visit/Patient Growth Rates	Are visits growing faster than patients? Is demand growing?

## **Operational and Clinical Assessments**

- Operational and clinical assessments are necessary before expanding capacity
- Analyze productivity and patient utilization
- Clarify your operational model
- Evaluate your programs

## **Physical Space Considerations**

- Age and condition of current space?
- Existing space adequate and/or attractive?
- How is space configured? Healthcare, team-based, flexible?
- Does it represent your community?
- Collaboration/funding requirements?

## **Scenario Planning 101**

	Scenario 1
Number of new patients	2,000
Provider FTE productivity/Patients per FTE	500
Additional provider FTE needed	4.0
Support staff per provider FTE	2.3
Total FTE needed	13.2
Estimated square footage per provider FTE	1,100
Total additional access footogo pooded	4.400
Total additional square footage needed	4,400
Cost per Square Foot?	\$180
Estimated Construction Cost	\$792,000
Hard Costs (construction, etc)	\$ 792,000
Soft Costs	\$ 170,000
Furniture, Fixtures, & Equipment (FF&E)	\$ 170,000
Total Facility Cost	\$1,132,000

## **Scenario Planning 201**

#### Scenario 1 **Dental/FTE**

	Dental/TTE
Number of anticipated patients	1,314
Provider FTE productivity/Patients per FTE	876
Additional provider FTE needed	1.5
Support staff per provider FTE	2.1
Total FTE needed	4.7
Patient Utilization (Visits per Patient)	3.4
Anticipated Visits per Year	4,468
Reimbursement per Visit	\$170
Total Reimbursement	\$759,560
Direct Cost Per Service Visit	\$169
Total Cost	\$755,092
Net Patient Revenue Gain/(Loss)	\$4,468

## Financial Feasibility and Sustainability

- Historical Performance (3 years audited)
- 5-8 Year Forecast
- Project Budget
- Sources and Uses
- Financing Structure

## **Identifying Funding Resources**

- New Market Tax Credits (NMTC)
- Tax-Exempt Bonds
- US Department of Agriculture (USDA)
- HRSA Loan Guarantee Program (LGP)
- HRSA Capital Grants
- Covid-19 Relief

## **Identifying Funding Resources**

- Foundations
- Bank Loan
- State/Local Funds
- Cash Reserves
- Lease vs Loan
- Grants/Gifts

## **HRSA Loan Guarantee Program (LGP)**

#### **HRSA Loan Guarantee**

- Congress put \$20 million dollars into a subsidy for loan loss reserve for the HRSA LGP so now the HRSA LGP can guarantee up to about \$890 million of new loans.
- Program is only available for 330 funded health centers
- Federal guarantee on 80% of the principal amount of loans made by non-federal lenders for the construction, renovation and modernization of medical facilities owned and operated by Section 330 health centers
- · May be a limit on percentage of principal used for refinancing
- Credit enhancement like the HRSA LGP can help a non-Federal lender to approve a loan application they may have otherwise not approved
- Has been combined with NMTC but can not combined with tax exempt bonds
- No minimum/maximum project budget NO HRSA FEES!
- HRSA has worked to streamline its administrative and documentation processes and is now accepting applications

eligible?

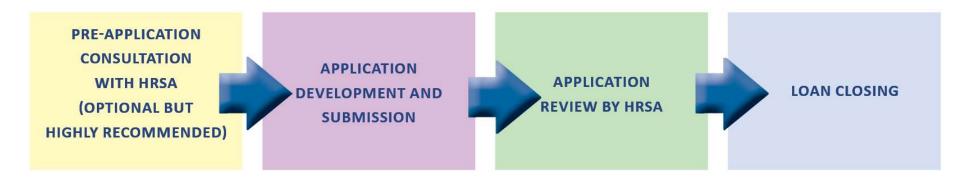

http://www.caplink.org/advisory-services/financing-assistance/hrsa-loan-guarantee-program

@NACHC **f in 9** @ | 23

### **HRSA LGP: Application Process**

https://bphc.hrsa.gov/programopportunities/loan-guarantee-program https://caplink.org/advisory-services/financing-assistance/hrsa-loan-guarantee-program

@NACHC **f in S 6** | 24

#### **New Markets Tax Credits**

- Benefit from Private "Investment" that is NOT Repaid
- Provide ~18% of Total Project Cost
- **Project Eligibility**
- Community Development Entity (CDE)
- Application and Awards
- **Timing**

#### **NMTC** and **FQHCs**

- As of 2017, health centers have benefitted from \$3.6 billion in NMTC investments
  - Financed over 330 projects serving at least 6.7 million patients annually
- Health center capital projects are a highly desirable asset type for NMTC investors
  - Geography: CHCs are usually located in qualified low-income census tracts which are considered to be "severely distressed" due to higher poverty and/or lower median family incomes\_— rural census tracts are also desirable
  - Mission: CHCs provide multiple positive community benefits positive health outcomes, economic impacts, other related services
  - Compliance: CHCs seen as low-risk for violating NMTC regulations, e.g. non-qualified businesses or uses
  - Financial Stability: health centers are seen as stable and growing industry that can support long-term debt

### **NMTC Challenges**

- Finding a Community Development Entity (CDE)
  - Aligning your project timing with other funding
- Complex structures
  - Three tiers of financing, with multiple parties
  - No two NMTC deals look exactly alike
  - Takes longer to close than you (or anybody else) think

### **How Does Your Project Qualify?**

- Basic Eligibility
- Severely Distressed (the bar that most projects need to reach)
- Targeted Populations Rule (very difficult to qualify)

## **Combining the Best Financing Sources**

## Considerations and Combinations Can Mean Significant

**Financing Cost Differences Over Time** 

## **Example: \$10 Million Health Center Project**

## **Example: \$10 Million Health Center Project**

- Conventional Bank Loan Only
  - Interest rate is 6% with 15 year amortization
  - Annual Debt Service (P&I) \$810,103
- Conventional Bank Loan with NMTC
  - NMTC "net benefit" approximately 25% of project budget
  - \$2,500,000 subsidization from NMTC's Program
  - Annual Debt Service \$791,971 During 1st 7 years; then \$759,471
- Tax-Exempt Bonds with NMTC
  - NMTC net benefit approximately 25% of project cost \$2,500,000
  - Interest rate 4.0 % (fixed 10 years); 15 YR AMORT
  - Annual Debt Service \$709,474 During 1st 7 years; then \$665,724
- Foundation's PRI with NMTC
  - NMTC subsidy approximately 25% of project budget: \$2,500,000
  - PRI Loan for the balance \$7,500,000; Interest rate of 3.0%; 40 year term
  - Annual Debt Service \$365,936 During 1st 7 years; then \$322,186

## "Capital Stack"

- Project 1, Rural
  - \$0.4M Land Equity
  - \$1.1M Cash/Predevelopment
  - \$2.2M NMTC Equity
  - \$4.2M Long Term Debt
  - \$7.9M Financing
- Project 2, Rural
  - \$0.5M Foundation Grant
  - \$0.8M In-kind
  - \$2.1M USDA Loan
  - \$3.4M Financing

#### Project 3, Rural

- \$2.0M Loan
- \$13.0M Loan (HRSA Guaranteed)
- \$5.8M NMTC Equity
- \$7.0M Cash/In-kind\$27.8M Financing
- Project 4, Urban
  - \$0.8M Cash
  - \$1.2M Loan (HRSA Guaranteed)
  - \$1.0M Loan
  - \$1.1M HRSA Grant
  - \$4.1M Financing

### **Unique Considerations**

- Rural Health Innovations
- Flexible Service Sites
- Telehealth & Technology
- Collaborations with Support Services & Other Provider Types
- Energy Efficiency
- School-Based Service Sites
- Workforce Recruitment & Retention
- Health Equity

#### **Building Upon What We Know...and are Learning**

## Capital Link's DIY Resources
